

# The Ultimate DOCUMENT MANAGEMENT SOLUTION

## Why Choose Dokmee?

Dokmee is a secure, easy to use document management system designed for a variety of purposes including document capture and storage, search and retrieval, and file sharing. Dokmee adapts to any business model by maximizing accessibility and functionality in repositories of all sizes, while increasing collaboration and communication between users. With a very user friendly interface available in 19 languages, Dokmee is the smart and flexible choice.

## Software Developer Kit

- Integrate with Desktop or Web Based Applications
- Microsoft .NET Platform
- HTML 5 Technology

### Web

Get connected worldwide and on-the-go. Compatible with Internet Explorer, Firefox, Chrome, and Safari.

### Cloud

Provides centralized access to files from any PC or mobile device worldwide with no server to purchase, manage or configure and minimal overhead costs. Hosted in a secure data center.

### Mobile

Access files on-the-go. Upload images from a mobile scanner or the device camera and gallery, all with no PC. Stay connected and interactive in workflow processes.
